Proofread the Paragraphs

Proofread the paragraphs for ten misspelled words. Then rewrite the paragraphs. Write the spelling words correctly and make the corrections indicated by the proofreading marks.

¶ The end of the school year is almost here and our teacher asked us to write a paragraph about what we found the most enjoyable about this year.

I liked ecology because we need to learn more about saving the earth. our study of American history and the fight for indapendence brought out feelings of patriotism in me. I thought about becoming a ~~a~~ chemmist when we learned about chemical reactions, but I have a fobia about causing an explosion by accident. I thought biology was fun, but the refrence books were so long. In the end, I think I would like to be a journalist, so studying Writing was the best for me. If only my handwriting were more legible!

Word Hunt

Read the paragraphs below and look for words with the Greek suffixes **-ology**, **-ism**, and **-ist** and the Latin suffixes **-able**, **-ible**, **-ance**, and **-ence**.

The Renaissance (rĕn' ĭ sĕns') is a time in the history of Europe. It was a time of new interest in art, literature, and learning. One of the meanings of *renaissance* is "reawakening." The Renaissance followed a long time when education made no difference to Europeans. It took place from the 14th through the 17th centuries.

This was the time of Leonardo da Vinci. Much of his art focused on science. His drawings of the human body are so accurate that biology students could probably use them.

It was a time of invention. Many new mechanisms were invented. There was world-changing progress in technology. Gutenberg invented the movable-type printing press. This made books available to common people. At the same time, the telescope made the heavens visible. A few more inventions of significance include the flush toilet, the screwdriver, and the pocket watch.

This was also the time of exploration. Christopher Columbus explored uncharted places on Earth. Galileo was a physicist and astronomer. He explored space. Both men caused disturbances in old thinking and beliefs.

The Renaissance was the entrance into modern times.
